ARRHYTHMIA

Technical Requirements for Organizers

Stage

- [ ] Stable, solid, tidy, sufficiently high.
- [ ] Suitable dimensions 8 m width × 5 m depth (minimum 6×4 m).
- [ ] Outdoor performances at minimum temperature 10 °C.
- [ ] 3× 230 V power sockets.

Sound

- [ ] For smaller and more intimate events we have our own equipment – always by prior arrangement.
- [ ] For larger events we bring our own sound engineer who operates the mixing console.
- [ ] We do not want stage monitors – we use our own in-ear monitoring.
- [ ] Microphone requirements are listed in the Stage plan.

Lighting

- [ ] Adequate lighting (spotlights, preferably coloured, music-reactive or operated by a lighting technician).
- [ ] Fog machines for evening events.

Dressing room

- [ ] Lockable dressing room with mirror for changing and storing equipment and instrument cases.
- [ ] Refreshments (at least 2 litres of drinking water).
- [ ] 3 parking spaces near the venue.

Sound check

- [ ] We arrive 60–90 minutes before the start of the performance to unload instruments and equipment to the stage and get ready.
- [ ] Actual sound check 30–60 minutes before the start, preferably without ambient noise.

Stage plan: Detailed stage plan available for download at **www.arrhythmia.cz** → Contact → For organizers.

For any deviation from these requirements, please contact the band manager (Gabriela Přemyslovská tel. +420 723 246 196, e-mail info@arrhythmia.cz).
